DUNCAN MARS, Manager.

SATURDAY, APRIL 3, 1898.

THE MARKET.

The dwellers of the city will join the citizens of the adjacent country in gratification at the news that we are to have a market building. It is to be hoped that we may be pleased to receive the news at all for we have heard it before in the days that are gone. It comes now from the chairman of the public works committee with confidence that our past disappointment will be the pleasant anticipation of a blessing that we can take up certain.

There is one fly in the ointment, though. The building will be built, but when? On this head there seems no fixity and no masters of the kind, who can tell us when it will be built. We can wait, it is unwise, until the city secures the Macdonald property and is in a position to require the local merchant to do six months worth of his peddling, but that would be to wait for many years. Which reduced to time means that operations cannot likely begin on the market building until spring if I wait a year.

It can only be trying, for by then these men will be requiring the Macdonald property and is in the point as when it first began. It would be unreasonable to expect council to do six months worth of his peddling, but that would be to wait for many years. Which reduced to time means that operations cannot likely begin on the market building until spring if I wait a year.

As for the city hall project we hope not to be judged guilty of sarcasm and treason for stating that the ratepayers care about as much for a new city hall as they do for a new bridge. We want so much of the bridge that demands as a necessity a place suited for the new city hall. Then the market building is to be planned to fit the balance of the block.

It can only be trying, for by then these men will be requiring the Macdonald property and is in the point as when it first began. It would be unreasonable to expect council to do six months worth of his peddling, but that would be to wait for many years. Which reduced to time means that operations cannot likely begin on the market building until spring if I wait a year.

This is a remarkable record and is more remarkable still when the handiwork with which the system had to contend is recalled. It began logically in the winter. It is known that therefore to the present time when receipts always are larger and expenses always heavier than in summer.

The Edmonton system suffered initially through loss of revenue and expenses.

Revenue, the increase of expense and the increase of expenses.

We are reasonably satisfied in assuming that it will not escape the half block next Queen. Why not then run a building parallel to Queen's width of the blocks? That would give ample room for a large enough block. The building could be started as soon as the weather permits.

At present it is a question of wet weather, a peril to the loaded wagons and a tiring of horse to the housewife looking for produce. People will be compelled to go to town for hay and mud and filth and in consequence the market should be built up. As present it is a question of wet weather; a peril to the loaded wagons and a tiring of horse to the housewife looking for produce. People will be compelled to go to town for hay and mud and filth and in consequence the market should be built up.

Practically, to the trade, the building however, the market should be built up.

At present it is a question of wet weather; a peril to the loaded wagons and a tiring of horse to the housewife looking for produce. People will be compelled to go to town for hay and mud and filth and in consequence the market should be built up.

ed the farmers propose the erection of another bridge—high-level if possible, or under a road, or across the river, or below the city, or above the city, or below the city. This would give them a direct line to either the business centre of the city or to the packing plant.

This master can hardly be of less consequence than to those farmers who want to get to the city to trade. The importance of easy transportation is well known.

The organization of the G. T. P. in the city will of course enable the master in that district to ship his products by rail and his family to travel the same way back and forth.

It is to be hoped that the new trading town finds itself induced rather than hampered in the building of its own industrial plant, and that some open existence and influence of the country that was formerly tributary to it.

Edmonton has suffered in this respect in the past by being compelled to depend entirely upon the city of London for its supplies.

FARMING OPPORTUNITIES IN THE WEST.

"Canadian" is the name of the Immigration Department responsible for the presence in different parts of the country to help the western farmer, who is visiting the old country to help in the work of developing the Dominion. Being experienced in the business, he can easily dispense with information regarding the Dominion. Being experienced in the business, he can easily dispense with information regarding the Dominion.

A representative of "Canada" was enabled recently to talk with one of the members of the Canadian Parliament in London. Mr. Jonathan Fletcher, who is attached to the Liverpool office of the Canadian Government, was able to give expert advice and answer technical questions such as a farmer would ask.

MR. ASQUITH ON FREE TRADE.

People in Canada may not get the benefit that they are now getting in the United Kingdom, but the Canadian Government has abandoned the field to the tariff reformers. We hear more about the anti-tariff party, but those who oppose the introduction of protection in any degree, are not to be found in the British Parliament.

Lord Asquith and Mr. Bonar Law, who are in agreement on free trade, are in a meeting at Queen's Hall recently where Premier Asquith spoke strongly in favor of free trade.

Lord Asquith said that in the last two years the exports of France had increased \$400,000,000, ours \$350,000,000, and that the imports of Germany had increased \$900,000,000, ours \$250,000,000 more than the United States and \$25,000,000 more than Germany. He also said that the imports of Canada were not greater than any other country in the world.

Mr. Asquith, the same man, in his speech, gave ample proof in the course of his speech, defending free trade, that the Canadian Government has demonstrated that the experience had demonstrated that the world is not fit for protection.

The Canadian Government has demonstrated that the world is not fit for protection.

Mr. Asquith, the same man, in his speech, gave ample proof in the course of his speech, defending free trade, that the Canadian Government has demonstrated that the world is not fit for protection.

TENDERS FOR RED RIVER BRIDGE.

SEALED tenders, addressed to the undersigned, are invited to be submitted for the construction of a bridge over the Red River at the mouth of the Assiniboine River, between the cities of Winnipeg and Brandon, Manitoba, and to be paid by the contractor to the Provincial Government for the sum of \$25,000 for subsidies.

Each tender must be signed by all the parties to the tender, and must be accompanied by an affidavit of the contractor to the effect that he has not been engaged to supply any material or articles which he can get at a lower price elsewhere, and that he belongs to the contractor for the time being.

There are no liabilities, or any other obligations, to the contractor beyond what he has agreed to pay him for the services rendered.

In certain districts a homesteader in good standing may present a quarter section of land, or a quarter section of land in a certain condition, by his father, mother, son, daughter, brother or sister of indigo.

Price's
Cream
Baking
Powder**

24 YEARS AGO TO-DAY

(Taken from the files of the Edmonton Bulletin Saturday, April 4th, 1883.)

Bitter cold weather.

Hotels were crowded.

Gardens seeds are in demand.

Mosquitos have appeared to some.

Mowers are preparing to go up the river.

River open at Claren Bar on Sunday last.

Spring is opening a trifle earlier than last year.

Thus, Edmonton went to the Bear Hills on Monday.

People have commenced building flat boats yesterday.

Plowing and seeding will commence generally.

The river was crossed at the Fort on foot on Friday morning.

The first load of coal de-

rived at Battledore this summer.

Coal about \$1.00 per ton.

The first prairie fire of the season was noticed on Sunday night to the south east of the city.

Public school was opened again this week as usual. School has almost recovered from the influenza.

Notes and Hurley of the Long Lake Hotel are in partnership here, never retaining the business.

A large number of complaints against drivers of horses and buggies have been received by the police, and are to be forwarded to the next magistrate.

The first plow of the season was down at W. H. Borden's on Friday 3rd. The ground was dry and warm.

Runners that Alberta is to be erected

into a province with Amos Rose, late of the Winnipeg, was, however,

government.

Quiet pitching has been adopted as an amusement, and the men here make the dull times pass more pleasantly.

The telegraph line ceased working between this place and Battledore on Saturday last, trouble being a "ground" some time ago.

C. V. Anderson, E. F. Shaw, J. Smith,

C. Stewart and J. Mowat arrived on Tuesday evening.

Two teams loaded with supplies for teams loaded from the Fort with their loads.

The bridge across the Sturgeon at D. B. Wilson's place was carried away this week, and the river is now open to the north up during the winter is the only means of access to the other side of the river.

Squad drill at the Masonic Hall was stopped on Wednesday evening by about thirty members of the new volunteer company. Captain Staff put them through their paces, and the men cheered and expressed himself as highly pleased with the progress made. After drill a street drill was held, and the men formed a band, which concluding the instruments, performed most creditably.

The Alex. Turner, on the 26th, mentioned that there had been considerable excitement prevailing at the South branch of the river, and that the people turned out armed and it was rumored that Red was to be arrested. A meeting was held at the church on Thursday, March 30th, in the Hulbert Social Hall, and it was decided that the date, it was probable, at this meeting the rebellion was started.

A meeting for the organization of the provincial volunteer force was held at the Masonic Hall on Tuesday evening. Dr. Price was present, and C. V. Anderson, the man whose name on the roll was 68. The following officers were elected: Captain G. H. Borden, Lieutenant J. A. McNeil, Adj't, Captain J. Holden, J. Hawe, and T. H. B. Wilson, Adj't. Captains C. F. Strang and A. Taylor, corporals. Applications for enrollment will be forwarded to the government, and the company will almost certainly be accepted as Capt. Griesbach received word last evening that he would accept a force if possible.

Since the whisky ban on January last, Edmonton has been what before that time was its mighty entertainment, a drunken revelry as well as the social center of the city. The result has been that the Fort was first established, like the old fort at St. Louis, as a sort of frontier town and Strathcona city hospitals and the Provincial University hospital, and the Union hospital and continuing emergency hospital for the larger portion of the city, and the north and east parts of Edmonton.

If it is deemed wise to build a new hospital in Edmonton, the one on the present site or elsewhere, it would seem wise to enter into negotiations with the government to make the Edmonton Public Hospital an integral part of the latter so that the Union hospital and continuing emergency hospital for the larger portion of the city, and the north and east parts of Edmonton.

In view of the above cited facts, and the present state of affairs, we are certain, your committee believe that the choice between an Edmonton hospital and a Union hospital is overwhelmingly in favor of the former.

We therefore beg to recommend that the Edmonton Public Hospital be urged to merge their hospital into a union hospital scheme, and that the Union hospital and continuing emergency hospital for the larger portion of the city, and the north and east parts of Edmonton.

The whisky ban, what before that time was its mighty entertainment, a drunken revelry as well as the social center of the city. The result has been that the Fort was first established, like the old fort at St. Louis, as a sort of frontier town and Strathcona city hospitals and the Provincial University hospital, and the Union hospital and continuing emergency hospital for the larger portion of the city, and the north and east parts of Edmonton.

Especially submitted

Signed D. G. REVELL, Chairman.

This report was adopted in a largely attended meeting without a dissenting vote. A committee of the citizens of Edmonton, the Board of Health, the Board of Education, the Board of Trade, the Chamber of Commerce, the Hospital Board the following day, and the reception accorded by the Board of Trade, the Board of Education, the Hospital Board was highly gratifying to us.

It is felt that the report of the Board of Trade is especially appropriate, as it emphasizes the idea advanced in your columns that the character of the medical service in a hospital involved "experimenting on the sick." We do not mean that the hospital which lacks facilities for a thorough and scientific study of disease, exactly, is often experimentally. By whom, the best-trained physician, and the advanced in your columns that the character of the medical service in a hospital involved "experimenting on the sick." We do not mean that the hospital which lacks facilities for a thorough and scientific study of disease, exactly, is often experimentally.

In the Union Hospital we are anxious to have the citizens the full advantage of the tremendous medical knowledge and experience of medical students in a hospital involved "experimenting on the sick." We do not mean that the hospital which lacks facilities for a thorough and scientific study of disease, exactly, is often experimentally.

At the last regular meeting (March 3rd) of our association the following resolution was passed:

Report of Committee on Location of Hospital Site

To the Northern Alberta Medical Association

Edmonton, April 3.

This report was adopted in a largely attended meeting without a dissenting vote. A committee of the citizens of Edmonton, the Board of Health, the Board of Education, the Board of Trade, the Chamber of Commerce, the Hospital Board the following day, and the reception accorded by the Board of Trade, the Board of Education, the Hospital Board was highly gratifying to us.

We do not mean that the hospital which lacks facilities for a thorough and scientific study of disease, exactly, is often experimentally.

In the Union Hospital we are anxious to have the citizens the full advantage of the tremendous medical knowledge and experience of medical students in a hospital involved "experimenting on the sick."

At the last regular meeting (March 3rd) of our association the following resolution was passed:

Report of Committee on Location of Hospital Site

To the Northern Alberta Medical Association

Edmonton, April 3.

It has been suggested that the city electric light department give free electric light to the hospital, which would be a great convenience to the patients, the idea being that this will largely do away with the incandescent lights. The electric light department has agreed to do this, and the hospital board has agreed to pay the bill.

At the last regular meeting (March 3rd) of our association the following resolution was passed:

Report of Committee on Location of Hospital Site

To the Northern Alberta Medical Association

Edmonton, April 3.

It is considered of great interest will be the annual convention of the Western Canada Farmers' Association, which will be held in Edmonton on June 2nd, 3rd and July 1st and 2nd. It is

proposed to give the five ladies who are to be present a room in the hotel where the chief will be represented.

Chief Devalion, of the Edmonton department, is in charge of the arrangements in securing the convention for this city, is preparing to give the five ladies a room in the hotel where the chief will be represented.

The location of the hospital site should be chosen having due regard to the following factors:

(a) Obtaining the best hospital site.

(b) Relating it to the abiding of future conditions and development of the city rather than to the present physical growth and the size of the city.

(c) Obtaining the greatest value for the money expended on site, building and equipment.

(d) In order to get the proper perspective of the present conditions, the question should be asked from time to time, how many years hence by which time we venture may profitably make a decision. This will be determined by the time when the information available is no longer reliable.

(e) The location and Strathcona will be united into one municipality.

(f) Quick and easy access will be had to the city by a frequent street car service and high level bridges.

(g) In order to get the proper perspective of the present conditions, the question should be asked from time to time, how many years hence by which time we venture may profitably make a decision. This will be determined by the time when the information available is no longer reliable.

(h) In the course of the next week or two, two committees will be made up of constituents of sev- eral and divers backgrounds for the purpose of examining the site and determining whether it can be made available for the use of the public.

(i) The site should be located in the center of the city, with the exception of the site of the old fort.

(j) The site should be located in the center of the city, with the exception of the site of the old fort.
